

Pro Repair Complex is a powerful, intensive regeneration treatment designed to restore hair damaged by chemical treatments, excessive heat, and external factors. It revitalises even the most fragile, brittle, or rubbery hair, bringing it back to life with strength, smoothness, and shine.

Formulated with **hydrolysed keratin**, collagen, shea butter, and algae extracts, this advanced treatment deeply **hydrates**, **eliminates frizz**, and **seals the hair cuticle**, reducing porosity and improving hair resilience. After just one application, hair is noticeably **healthier**, **softer**, and **easier to style**.

Effects?

Results You'll Love

- Stronger, more elastic hair
- Silky smooth, frizz-free finish
- Deep hydration & reduced porosity
- Effortless styling with long-lasting results

Transform damaged hair in just one treatment - **no hair straightener required!**

How to Use

Step 1: Cleanse

1. Apply Diana Pro Repair Complex Shampoo to wet hair, gently massaging it in.
2. Rinse thoroughly and repeat if necessary.

Step 2: Apply Treatment

1. Towel-dry hair to remove excess water.
2. Section the hair into thin strands.
3. Apply Diana Pro Repair Complex 01 - 3 cm away from the scalp, ensuring even distribution by combing through the strands.
4. Cover hair with a thermal cap or place under a hairdryer (medium heat) for 5 minutes. Do not rinse.

Step 3: Seal & Restore

1. Without rinsing Step 01, apply Diana Pro Repair Complex 02 to thin sections, again keeping 3 cm from the scalp.
2. Place hair under a thermal cap or a hairdryer (medium heat) for 10 minutes.
3. Allow hair to cool, then rinse thoroughly.
4. Style as desired and enjoy smooth, repaired hair!

Additional Information

For Even the Most Damaged Hair

Pro Repair Complex is designed to revive even the most fragile, brittle, or rubbery hair. It works instantly to restore strength, elasticity, and shine, delivering visible results from the very first treatment.

For Long-Lasting Regeneration

To extend and enhance the effects, we recommend a series of 3-5 treatments, depending on hair condition. For optimal results, treatments should be spaced 3-4 weeks apart.

Use with Colouring & Lightening Services

- **Same-Day Colouring** - The treatment can be performed immediately after colouring. Simply acidify the colour properly, then apply Pro Repair Complex 01 to wet hair (without using Pro Repair Shampoo). Continue with the treatment as per instructions.
- **Post-Lightening Repair** - Ideal for restoring hair health after bleaching, helping to reverse damage and strengthen the hair.
- **Pre-Lightening Protection** - The treatment can also be applied before lightening to reinforce the hair's structure and minimise potential damage.

Perfect for Straightening Treatments

Pro Repair Complex works as an essential pre- and post-care treatment for smoothing or straightening services such as:

- Protein straightening
- Keratin treatment
- Bioplasty
- Nanoplasty

It prepares the hair for treatment by strengthening and improving hair quality, and restores softness, shine, and nourishment after straightening services.

Home Care for Long-Lasting Results

To maintain the effects of Pro Repair Complex, we recommend using Premium Diana Home Care products, available in classic and cold pigment versions.

- **Homecare Shampoo & Mask** - Formulated for hair treated with professional salon services such as Hair Botox, Keratin treatment, Protein straightening, Nanoplasty, and deep regeneration.
- **Infused with active ingredients** - A unique blend of keratin and nourishing compounds strengthens hair from within, making it more resilient and healthy.
- **Prolongs salon results** - Helps maintain smoothness and shine while progressively restoring strength and elasticity.
